Mining Equipment

About Us

Our company NKMZ Central Europe s.r.o. was founded in Czech Republic in 2015 and for many years was an official representative of NKMZ, Ukraine. We delivered mining equipment, mill rolls and parts for metallurgical machinery for European corporations and plants, as well as companies of CIS countries.

We established strong business ties with following companies: ArcelorMittal, Liberty Steel, Salzgitter, VAI, NLMK Europe, Aleris, UGMK and many others.

Starting from 2022, NKMZ Central Europe s.r.o. has been successfully developing a new avenue of producing and delivering mining equipment, cast and forged rolls, parts for metallurgical equipment. This is based on efficient usage of engineering and technological knowledge, amassed during 85 years of production as a part of NKMZ.

We established several production facilities in China, Romania, Bulgaria and purchased manufacturing capacities in Germany.

Furthermore, an independent department was created in China, which oversees strict adherence to all technological norms and processes.

Within the scope of this new project, our company works with the best design and engineering personnel, who ensure product's operational capabilities and strict adherence to the specified needs of our customers.

We are very familiar with the technical and quality requirements for all further listed mining equipment. Additionally, we possess all relevant documentation, as well as technological know-how required for production and delivery to all types of customers.

Furthermore, we are ready to produce a wide spectrum of spare parts for different types of machinery, such as crushers, mills, hoisting machinery and excavators according to the our own designs, or the ones provided to us by the customer.

A strict and comprehensive quality control system was established, in order to follow the best practices and adhere to all technological requirements.

We are interested in establishing contact and discussing cooperation opportunities with the customers of our region. Contact information can be found on the last page of this brochure.

CRUSHERS & MILLS

- Primary crusher
 - Reduction crusher
 - Medium duty crusher
 - Small duty crusher
 - Screw crusher
 - Smooth roll crusher
 - Screw-tooth crusher
 - Double-roll tooth crusher
 - Quad-roll smooth crusher
 - Rotor crusher
 - Hammer crusher
-
- Rod mill with central feed
 - Ball mill with central feed
 - Ball mill with screen discharge
 - Ore-pebble mill
 - Universal ball and pebble mill with with screen discharge
 - Autogenous and semi-autogenous mill
 - Coal-pulverizing mill

EXCAVATORS & MINING MACHINERY

- Walking single-bucket dragline excavator
 - Bucket-type quarry crawler excavators
 - Walking dragline bucket wheel excavator
 - Walking bucket-wheel excavators
-
- Single-cylinder mining hoisting machines with a solid cylindrical drum
 - Single-cylinder mining hoisting machines with a non-solid cylindrical drum
 - Mining hoisting machines with two drums
 - Dual-cylinder mining hoisting machines with a non-solid cylindrical drum
 - Multi-rope mining hoisting machines

CONVEYOR EQUIPMENT & SPARE PARTS

- Spare parts for all listed machinery and equipment
- Modernization of the existing machines, including their refurbishment and adherence to modern requirements
- Mine spreader with walking mechanism
- Crawler-mounted spreader
- Conveyor belts
- High incline conveyor

CONTACT INFORMATION

Office in Czech Republic:

Jindrisska 941/24
Nove Mesto, 110 00 Praha 1
Czech Republic
